Corkhound can arrange tastings around the world due to its network of contacts.

Our "enthusiast" sessions are aimed at beginners and casual drinkers, with an aim of giving you a basic understanding of wine in general.

The "specialist" sessions are more focused on one or more target areas, such as:

- the main grape varieties
- the major wine producing regions of the world
- the theory of food and wine matching
- production methods
- fortified and dessert wines
